

TRAINEDAGEN

CHALMERS

1 - 5 OF
NOVEMBER
2021

WELCOME TO TRINEEDAGEN!

This year we welcome you to the sixth, and quite different, edition of Trineedagen! Before you start reading about the fair, I have a question for you: How do you network? I bet you don't do it the same way as I do, nor as your best friend. Therefore, we have created a digital fair, containing loads of ways for everyone to get information about different trainee positions, mingle with companies and ask questions. We also made it possible for you to stand out to the companies that you are extra interested in! In other words, a chance for you to create a flexible and comfortable meeting where you feel your best. Simple enough, right?

My advice to you is to dare to ask those silly questions you have always wondered about; especially concerning your forthcoming working life! This catalogue is your guide to Trineedagen 2021. Take the opportunity to read about the companies and prepare questions before the fair. And hey, we have already matched your profile to the companies participating. So take a breath and rest assured that the companies are already interested in you — and don't forget to promote yourself!

Sebastian Samuelsson

TRINEEDAGEN

TEAM

THE TEAM

We are the Traineedagen Team, part of Chalmers Studentkår Promotion, and we have been working towards this event since the Spring of 2021. We are incredibly proud and excited to have put together a really compelling selection of companies and trainee programs for this year's edition and we hope this event will be the start of your future career!

CHALMERS STUDENTKÅR PROMOTION

Chalmers Studentkår Promotion is a company owned by the Chalmers Student Union. Our dedication and deep understanding of student values enables us to create forums where students and companies can connect.

We create opportunities for companies to interact with students and vice versa by arranging physical meetings, like lunch lectures, workshops and case nights but also through digital communication channels, such as virtual company visits and our own PromotionTV channel.

The main reason why we are organizing events such as Trainedagen Chalmers is to help students at Chalmers to meet their future employers and create a network that can help them to reach their dreams.

To learn more about us visit www.chspromotion.com

THE FAIR

Trainedagen Chalmers is an exclusive career fair for last-year students at Chalmers and Gothenburg School of Business, Economics and Law. The idea is to promote and connect the best and most promising candidates with companies offering some of the most attractive graduate programs in Sweden. Therefore, as a student admitted to the fair, you are provided with a unique and advantageous opportunity to discuss your future with highly interested companies in a calm and personal environment.

Traditionally, the fair has been organized as a physical one-day event at the Chalmers Student Union building. This time around we have opted for a more flexible, digital format to ensure the event is as accessible and relevant to as many attendees as possible.

Company presentations will be held as morning- and lunch webinars spread out over the whole Trainedagen week. This way, you can choose what presentations you want to attend and make Trainedagen fit into your personal schedule.

Following the presentations, each afternoon is scheduled for individual contact calls where you will have the chance to talk to the companies you have been matched with.

We wish you an enjoyable week at Trainedagen Chalmers and hope that this could be a chance to kick-start your future career!

PREPARE FOR THE FAIR

Inform yourself

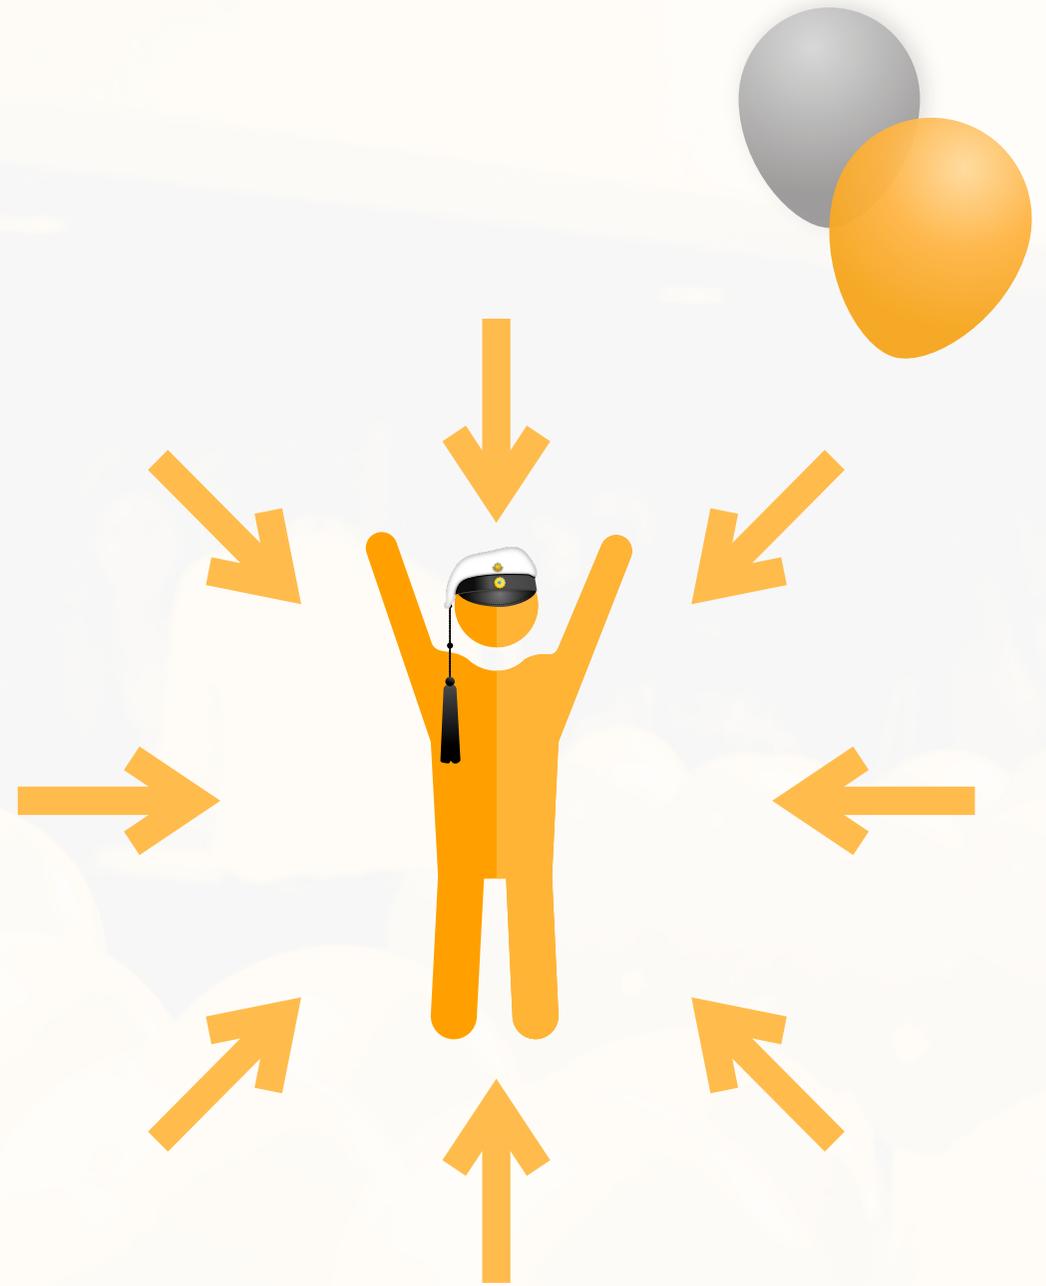

It is easier to communicate if you have some basic knowledge about the each company's industry, organisation and trainee program. Make sure to visit the websites of the companies you are interested in.

Polish your resume

Make sure to update your resume to reflect any relevant work experiences and extracurricular activities that can be relevant to the trainee positions you are interested in.

Find a quiet place

Make sure you are in a quiet and comfortable environment during the fair to professionally promote yourself to the companies.

About Lime

At Lime, we love CRM! Since the beginning we have helped more than 6000 companies to reach better results with the help of easy-to-use CRM solutions that we develop, consult, and support ourselves. Today we are over 330 colleagues and one of the largest CRM suppliers in the Nordic countries!

Trainee Program

Want to challenge yourself both personally and professionally? Kick-start your career together with other ambitious and recently graduated students with our European Trainee Program. Every trainee program at Lime has an own unique twist regarding where we are and how products are updated!

With our European Trainee Program, we promise you a unique opportunity to kick-start your career. Faced with interesting challenges from day one, your learning curve will rise rapidly. Throughout the program, you will be mentored by a senior colleague providing support. The trainee program kicks off with four weeks at our HQ in Lund, Sweden. Together with all trainees from our different offices, you'll get intense training and education as well as plenty of time for team building and having fun. After the intro period, you head back to your local office and start working hands-on with everything you've learned. The trainee year is rounded off with a weekend trip to a major European city together with the trainee group to celebrate that you have survived your first year.

Are you our new star?

Om Visma

Visma är en av Europas mest expansiva tech-koncerner som levererar affärskritisk mjukvara som effektiviserar samhället. Med 200 bolag i 21 länder har vi en stark entreprenörsanda som bidrar till en kultur av snabbriklighet och möjlighet att påverka samtidigt som vi har musklerna och tryggheten som kommer med en koncern.

Trainee Program

Vismas Management Trainee Program består av en mix av tech och management och riktar sig mot dig som vill vara med och utveckla och effektivisera samhället. Under ditt år som trainee utvecklas du i raketfart, bygger ett värdefullt yrkesnätverk och utforskar flera områden för att se vad som passar dig bäst. Detta i en internationell miljö där innovation och gemenskap står i centrum.

Som trainee genomför du totalt fem olika välvalda projekt som är betydelsefulla för Vismas framtida utveckling. Projekten är varierande, många med internationell placering och anpassas efter din akademiska bakgrund. I projekten är du ansvarig för ledning, planering och genomförande. Samtidigt som du förväntas att kliva ur din komfortzon har du alltid stöttande projektägare, faddrar och kollegor nära till hands för att se till att du lyckas. Du har även tät kontakt med programkoordinatorerna som säkerställer att du får bästa möjliga start på Visma. Tillsammans med din egna personliga mentor planerar du dina framtida karriärvägar och får stödet du behöver i din personliga och professionella utveckling.

Efter avslutat traineeprogram övergår du till en fast position och får då en unik möjlighet att hitta en roll inom Visma som matchar dina framtidsvisioner och ambitioner.

About Hitachi Energy

Hitachi Energy is a global technology leader that is advancing a sustainable energy future for all. We are advancing the world's energy system to become more sustainable, flexible and secure whilst balancing social, environmental and economic value.

Trainee Program

Our Power+ Graduate Program aims to jumpstart your career with a truly unique journey that will take you across three 6-month long work assignments before rolling off into a permanent position. While you are a full-time, permanent member of our team, each assignment will be within a different segment of our business and provides deep, experiential learning opportunities within different engineering segments. Along the way, we'll provide you continuous career support with career development curriculum and coaching. Our program is perfect for you if you are looking to fast-track your leadership potential and gain a well-rounded business acumen that will enable you to find the perfect, long-term position within our organization. Join us!

Power+ Graduate Program

Kickstart your professional career and explore three different areas during our 18-month program for STEM Graduates.

About Volvo Group

Volvo Group drives prosperity through transport and infrastructure solutions, offering trucks, buses, construction equipment, power solutions for marine and industrial applications, financing and services that increase our customers' uptime and productivity. We are committed to shaping the future landscape of sustainable transport and infrastructure solutions.

Trainee Program

During 15 intense and exciting months, the program will give you a holistic view of the Volvo Group's global truck manufacturing organization. You will get to know our different brands and their plants and learn about our logistics organizations and activities. You will take a deep dive into some specific areas of our business such as manufacturing, health and safety, quality, and continuous improvements, while also learning about the end-to-end supply chain, aftermarket and our remanufacturing operations. You will be part of the transformation in our industry, working with new technologies and building the competencies for tomorrow.

In parallel, you will grow your interpersonal skills through individual and team development sessions. You will have a permanent position from day one, with a manager and mentor to support you. You will have the opportunity for several "on-the-job" rotations and experience working on project assignments. In addition, you will join a number of learning modules where, together with other program participants, you take part in training and events designed to help you grow into your future career at the Volvo Group. Be a part of the innovative world of Volvo Group and develop the next generation of production plants or distribution centers!

About Northvolt

At Northvolt, we go to work to change the world. To undo the past and recharge the future. To design, manufacture and recycle green batteries so great, they will one day make oil history. Use your skills at Northvolt to make real impact in the world.

Internship Program

Northvolt is all about the future. And we're looking for curious minds to help shape it. With Northvolt Internships, we invite a team of selected students to participate in a paid eight-week summer placement here in Sweden. As an Intern, you'll work within a Northvolt department matched to your field of studies and will have the opportunity to learn from very best – dealing with cutting edge science, engineering, and manufacturing processes. Throughout the internship you can expect to become involved in numerous projects, carrying deliverables providing you the opportunity to shine. Northvolt is growing in a rapid pace, and in joining us, you'd do the same.

This is a chance to put your skills and knowledge to the test. To step out from the comforts of school and apply to making the world a better place with one of the most important industrial projects being undertaken in Europe today.

Sounds interesting? Check out northvolt.com/chalmers

About Parker Hannifin

As the world leader in motion and control technology, Parker has an important role to play in solving the greatest technical challenges of our time. To succeed with our challenge, we need amazing employees with different skills and backgrounds. Our success is based on a team of employees who feel freedom and responsibility, and who are given the opportunity to operate in a developing environment.

With net sales of over SEK 100 billion, units in over 50 countries and over 57 000 employees around the world, Parker is a global company with endless possibilities. See the clip "This is Parker " or read more about us at www.parker.com

Trainee Program

The Parker graduate program is a great way to accelerate your career in a global company within motion and control. The two year international program offers professional skills, real-world experience, and a big network across the EMEA region. Over two years you will work on multiple assignments, including one overseas, to learn about our business. You will work hard, grow personally and professionally, and get to know a global company. Providing real opportunities to build a career in Engineering, Finance, Human Resources, Operations, Supply Chain and Sales.

About LKAB

LKAB is an international mining and minerals group that offers sustainable iron ore, minerals and special products. We are committed to developing carbon-free processes and products by 2045, leading the transformation of the iron and steel industry. On this journey, we need committed, innovative and responsible employees.

Trainee Program

As a trainee at LKAB, you get the best possible transition from studies to working life and can contribute to our exciting transition and a carbon dioxide-free LKAB.

The program, which is in English, starts in September 2022 and lasts for nine months. As a trainee, you will gain a deep understanding of our products, processes, operations and our business through workplace internships and training. You are offered a permanent employment from start with placement at one of our operations in Kiruna, Svappavaara or Malmberget.

You will get your own mentor, meet many of our employees and visit many of our workplaces to create an understanding of our culture and how all roles are connected. The tasks are varied, and you will be involved in several different projects during the trainee period. Your personal development and a gained insight into how your career can develop is important to us. At the end of the program, it is possible to visit one of our foreign businesses.

THANKS FOR COMING!

**Don't be a stranger. If you have any questions,
we are here for you!**
